

SEASONS

Standard Tuning

Capo 1

Verse 1

G

There was a time

When we had time to dream

C

Of everything we didn't need

G

And not a promise was a lie

D5

And a thousand miles

Felt like an inch.

G

I memorized the songs you liked,

C

I'm wasting nights on memories,

G

I'm sick and tired

Of getting tongue-tied

D5

When you ain't even here

C

And I'm in my world alone

G

With all the words

D5

I wrote upon

My bedroom walls

C **G**
And you don't even need

D5
To know this all

Chorus

Em **C**
'Cause I fucked up my life

G **D5**
To get back to my past

Em **C**
When the light of your eyes

G **D5**
Meant much more than my breath

Em **C**
And you're still here beside me

G **D5**
Though we're planets away

Em **C**
And the seasons are passing

D5 **G**
But I still feel the same.

Verse 2 (Same as Verse 1)

There was a time
When I had everything
But all I needed,
I've been bleeding
Right before your eyes, you didn't
Notice you were all I smiled for.
All the roads I walk alone
Are way too far from home
For home is where you keep
Your golden soul.

Chorus

'Cause I fucked up my life
To get back to my past
When the light of your eyes
Meant much more than my breath
And you're still here beside me
Though we're planets away
And the seasons are passing
But I still feel the same.

Chorus

I fucked up my life
To get back to my past
When the light of your eyes
Meant much more than my breath
And you're still here beside me
And I still cannot speak
Though the seasons are passing
But you're all that I need.
